

Leading features. First class design. One of the most discreet on the market.

# VEHICLE DRIVE RECORDER

An essential dash cam that records every drive in full HD quality, including superior night-time vision. The device can also record even when the car is parked by using the Power Magic Pro (that comes included) that will cut off automatically, leaving enough charge in your battery to start your vehicle<sup>#</sup>.

## Key Features

Comes with a 32GB SD card<sup>^</sup>

- Records both audio and visual footage.
- Built in GPS and WiFi: GPS provides speed recording and tracks travel via Google Maps. WiFi allows for viewing a live feed, downloading footage and adjusting settings.
- SD card allows for easy viewing of captured footage on a PC, adjusting user options, playback footage in slow motion and more.
- Dedicated App (available via iOS and Android) for reviewing captured footage.
- Available as front or dual (front and rear) configuration.
- Professionally installed by a trained Technician.
- Comes with a 3 year nationwide warranty<sup>†</sup>

## Benefits

Your best eye witness in the event of an accident

The Power Magic Pro is included with your purchase and ensures the Vehicle Drive Recorder continues to record when the vehicle is parked

- Helps provide evidence in the event of an accident.
- In any sudden accident, footage can be replayed immediately via the App.
- Built-in GPS and WiFi makes for a cleaner installation with less cables, and removes the need to take the SD card out for simple tasks.
- Saves and organises files on the microSD card in a way that reduces the need for regular SD card formatting, and prevents file corruption events after long periods of use.

**+ Choose the optional Power Management System to provide uninterrupted power to your Vehicle Drive Recorder.**

- The optional Power Management system can also be supplied and installed, enhancing your stand-by time in Parking Mode.
- Works by charging as you drive, then powering your Vehicle Drive Recorder when your car is switched off (does not need to use your existing car battery).
- Extends surveillance recording times, and avoids any potential error warnings, drop-outs, or system interruptions that some new vehicles may be susceptible to.
- 12V and 24V compatibility.
- Some vehicles require the Optional Power Management System to enhance stand-by time in Parking Mode as a result of manufacturer design. Please ask your Consultant if this applies to your vehicle.
